

FLEXUSB™

The World's First Fully Adjustable USB Adapter

FlexUSB™ is the small, lightweight accessory that provides a means to position USB devices, allowing their use with all computers in even the most cramped environments.

FlexUSB™ bends, rotates and flexes in response to the changing needs of the user

Notebook PC and Card Reader
Without FlexUSB™

Notebook PC and Card Reader
With FlexUSB™

- Card Reader
- Flash Drives
- Windows
- Hubs
- Printers
- Mac
- Cameras
- Linux

USB device doesn't fit?

Don't use a 6 ft. cable...

Use FlexUSB™

What the media has to say:

"No more long memory keys sticking directly out from the side of your computer. You can have it at a 90-degree angle, and it works with all USB devices." – Tech TV, The Screen Savers

"It's like a USB Adapter that does yoga!" - Dick DeBartolo, ABC News

"I love the FlexUSB. Just plug your USB 1.1 or 2.0 storage device or cable into the connector, and you can rotate them up, down, and all around--in short, out of the way."
– Anne McDonald, PC World
