

FLEXUSB™

The World's First Fully Adjustable USB Cable

FlexUSB™ Cable bends, rotates and flexes in response to the changing needs of the user

FlexUSB™ Cable provides a means to position the cable in the direction you want. USB ports on laptops computers and desktops computers are often on the sides or the front of these units, which means the USB cable is taking up the desktop space.

FlexUSB Works With All USB Devices:

Works with all USB devices:
including USB 2.0 (Hi-Speed)

Works on all the major platforms:

- Card Reader
- Flash Drives
- Windows
- Hubs
- Printers
- Mac
- Cameras
- Linux

Don't use non-Flexcable...

Use FlexUSB™
